# Industry Recognition and Compliance

## Memberships & Accreditations

We are proud members of South Africa's most respected industry bodies and hold internationally recognized certifications — a testament to our commitment to excellence, security, and service quality.

Over nearly a decade, our award record reflects consistent industry leadership across outsourcing, technology, and social impact.

# Our 3 business offerings

Trilogy offers three distinct pathways to elevate your customer experience strategy. Whether you're looking to outsource your entire contact center, establish your own capability center in South Africa, or implement cutting-edge AI and digital solutions, we have a proven model to meet your needs.

## Offshoring BPO

Voice to Digital to Autonomous CX

Outsource your contact center to Trilogy in South Africa and accelerate your digital customer engagement. We provide modern technology platforms in a ready state—just add humans. Our comprehensive solution includes voice, digital channels, and AI-powered automation to deliver exceptional customer experiences at significantly reduced costs.

40%-60% Saving through outsourcing versus Captive UK or outsourced UK call centres

## Global Capability Centers (GCC)

Design, Build, Innovate & Transfer

Build your own capability center or contact center in South Africa with our expert guidance. DBIT assists international BPO and enterprise companies to establish global capability centers that provide 20-30% cost savings compared to traditional outsourcing. Maintain complete control while benefiting from our local expertise and proven implementation methodology.

Additional 20—30% Saving through GCC (Global Capacity Centres) versus outsourced South African call centres

## AI and Digital Platforms

Leverage our award-winning AI-enabled digital and autonomous platforms for customer service, sales, marketing, and collections. All solutions are deployed with a "human in the loop" approach, ensuring optimal balance between automation efficiency and personalized customer care. Access cutting-edge technology without the development overhead.

Further savings through digital and AI deflection

# Why South Africa? · Your Strategic Outsourcing Advantage

South Africa has consistently been ranked as the **second most attractive Business Process Outsourcing (BPO) location globally**, following consecutive years of high performance. Source : [Mckinsey](#)

## Cost Efficiency meets Quality

**Up to 60% lower** operational costs than UK/USA markets, providing substantial wage arbitrage without compromising quality or service standards.

## Cape Town: The Premium Hub

The leading BPO destination with rapid growth, exceptional infrastructure, and the largest skilled talent pool in the region.

### Industry Recognition

Ranked top-three global BPO destination for three consecutive years by leading industry analysts.

### Time Zone Synergy

GMT+2 alignment offers 1–2-hour difference with UK and extended USA coverage capabilities.

### Quality Talent Pool

Young, educated, and highly professional workforce ready to deliver exceptional customer experiences.

### Comprehensive Services

Expertise spanning voice support, technical assistance, and advanced customer experience management.

### Language & Cultural Excellence

Over **95% workforce proficiency** in English with neutral accents that resonate with Western consumers, consistently driving high Net Promoter Scores.

# How and Where We Operate

With over 25 years of combined experience, our leadership team has deep expertise supporting SA, UK and USA markets while helping prominent global brands successfully establish operations in South Africa. We understand the complexities of offshore expansion and bring proven methodologies to every engagement.

## Geographies Covered

Our leadership team has over 25 years of experience supporting predominantly the UK and USA markets, helping prominent brands successfully land in South Africa. We provide seamless service delivery across time zones with native English-speaking talent.

## Verticals Covered

Our team has previously worked with Thames Water, British Gas, Vodafone, John Lewis, Aldi, KFC, and Virgin, among others. We possess intimate knowledge of telecommunications, utilities, insurance, retail, healthcare, technology, and e-commerce sectors.

- Technology & E-Commerce
- Healthcare & Insurance
- Retail & Telecommunications
- Utilities & Financial Services
- Travel, Tourism & Hospitality
- Automotive

## Functions Covered

We have over 25 years of customer service experience with a globally awarded team. We maintain a focused, niche offering to ensure excellence in every engagement.

- Customer Service & IT Support
- Chat Commerce & Digital Engagement
- Back-Office Administration
- Digital & AI Enablement
- Automation & RPA Implementation

# Strategic Differentiation · Boutique Excellence

## Tailored Approach

We are a Cape Town-based BPO delivering niche solutions to our customers. We combine personalized attention with enterprise capabilities to deliver experiences that exceed expectations.

## Award-Winning Innovation

Built on modern digital infrastructure and AI capabilities from day one. Our In-house team creating bespoke AI solutions recognized for technical excellence.

## Commercial Flexibility

Unique contracting and costing options tailored to your specific needs—flexibility traditional BPOs can't match.

## Industry Expertise

Our globally recognized team delivers exceptional results across Operations, HR, Recruitment & Training to ensure we give our customers the best possible customer service representatives for their business and brand.

Full-service CX outsourcing across **voice, chat, email, and back office**. Designed to **reduce cost-to-serve** without degrading customer experience. Built for **UK and EMEA** time-zone and cultural alignment. AI is used to **deflect, assist, and automate**—not blindly replace people.

“South Africa’s Global Business Services sector has evolved from a cost-arbitrage destination into a **strategic, value-adding export industry** supporting complex services across financial services, healthcare, retail, and digital platforms.”

# Test Kitchen

Design, Test, Deploy, Learn | Repeat

Our Digital and Autonomous Test Kitchen allows our clients to pilot new digital deflection strategies, automated process and other initiatives without disrupting the current operations.

# Case Study Vuma FNO

## Supporting 1 Million Customers

### The Challenge: Customer Support at Scale in a Rapidly Growing Market

As Vuma's subscriber base expanded through 2025 and early 2026, the demand for responsive, 24/7 customer support intensified both from residential users and from internet-service providers (ISPs) that resell Vuma's network services. Key support challenges includes:

- Managing high-volume inbound queries across multiple channels (voice, email, WhatsApp).
- Supporting complex technical troubleshooting for broadband installation, service activations, connectivity issues, and outages.
- Providing real-time escalation paths for business customers and enterprise partners.
- Ensuring consistent SLA fulfilment during peak traffic and network expansion phases.
- Vuma's rapid growth trajectory exemplified by crossing one million subscribers, raises the stakes for support reliability and responsiveness.

### The Solution

- 24/7, Scalable Support centered on Customer Experience with Multichannel Service Support Desk
- Deliver around-the-clock support, enabling Vuma's end customers to receive assistance whenever they need it. This includes:
- Voice support: Assisted calls with trained broadband support specialists.
- WhatsApp resolution: Real-time problem-solving engagement.
- Email triage: Structured escalation and tracking for complex tickets.
- All service channels operate with robust knowledge bases and shared workflows to ensure consistency across experiences.

# Case Study Webafrica

## On-Demand Billing Support at Scale

**Problem** - Billing runs for a national ISP introduce heightened customer anxiety, increased contact volumes, and zero tolerance for error.

Webafrica needed a partner that could:

- Rapidly provides scale for billing-skilled chat agents
- Support multiple billing processes (VR, Debit Orders, Suspensions, Premium extractions)
- Operate extended hours across staggered schedules
- Maintain accuracy, empathy, and speed during peak billing pressure
- Flex capacity day-by-day as workloads shifted
- Failure would have meant increased churn, reputational damage, and billing escalations.

**Solution** - We deploy a fully managed, on-demand chat workforce purpose-built for billing operations.

### Key Capabilities Delivered

- 120 billing trained chat agents
- Real-time workforce planning and intraday optimisation
- Centralised QA, escalation handling, and live performance monitoring
- Seamless alignment with Webafrica's billing cycles and systems

### Products Supported

- Unlimited Fibre
- Speeds up to 1Gbps
- Plug-and-Play LTE
- Rapid activation and easy billing queries

### Operational Impact

- Protected CSAT during peak billing stress
- Reduced billing escalations and repeat contacts
- Rapid response to payment failures and suspensions
- Accurate, compliant billing communication at scale
- Zero operational disruption to Web Africa's core teams

# Case Study Homechoice

## Facebook to WhatsApp Sales

### Business Challenge:

- Inability to sell from their adverts on Facebook in real-time.
- Sales conversions restricted to normal working hours as previously dependent on human intervention

### Solution:

Trilogy deployed an effective connection system to allow seamless and instant buying options from Facebook prospects into WhatsApp, allowing for continuous contact with the buyer.

### Benefits:

1. Increased revenue by over R1,000,000 per month.
2. Improved customer satisfaction.
3. 91% adoption rate for WhatsApp & 50% increase in customer compliments.

**COMPANY X**

**COMPANY CASE STUDY**  
Facebook to Whatsapp Sales

**CHALLENGES**  
**Business Challenge:**  
How do we sell from an advert on Facebook in real-time? We are paying for Facebook adverts, but don't have any idea the ROI and how many actual sales/revenues were made. The age-old challenge with "above-the-line" awareness advertising.  
**Customer Challenge:**  
How can I immediately (real-time) buy something, or chat to a digital agent to buy something I see advertised on Facebook by just clicking on a button or "like" an item. Anytime, Anywhere.

**SOLUTION**

1. Capture potential customers browsing Facebook & allow them to chat with your brand. Use rich media to inform customers further about product.
2. Click to order or use an agent to assist the customer all from within the chat.
3. Ensure compliance with the "Opt-in" confirmation and confirm the order in the Chat with price and pictures.
4. Keep the customer updated with chat notifications of delivery status and provide In-Chat Customer Satisfaction Surveys.
5. Re-engage with the customer anytime for upsell and cross sell opportunities.

**BENEFITS**

- 1. Increased Revenue**  
Over 1 million Rand per month increase in revenue.
- 2. Improved customer interactions and satisfaction**  
91% adoption rate in Whatsapp and increased customer compliments by 50%

**AT A GLANCE CHALLENGES**

- Convert leads to sales in real time
- How to qualify for purchases immediately

**BENEFITS**

- Direct Revenue : **R1,000,000 pm**
- CSAT : **50% increase**
