Introduction

Dear Mujeeb,

Thank you for the discussions with the Medscheme and Trilogy teams. This proposal sets out how Trilogy Digital will help Medscheme take its healthcare BPO capability into the United Kingdom and United States, and how we will assess Medscheme Shared Services against international BPO best practice.

It covers two workstreams. Each is contracted in the currency in which it will be delivered and billed:

- **Sales Enablement Solution** — United States Dollars (USD).
- **Shared Services project, Gate 1** — South African Rand (ZAR).

The pages that follow follow the outline of the Medscheme International presentation of 18 August 2026, then set out commercials for each workstream, a combined view, and a place for Medscheme to accept.

We would be pleased to close these terms with you before the end of August.

Regards,

Kobus van der Westhuizen

What Trilogy is offering

Two complementary workstreams. Sales Enablement opens UK and US demand for Medscheme's healthcare BPO. Shared Services Gate 1 readies the operating engine behind that growth.

WORKSTREAM A · USD

Sales Enablement Solution

Trilogy, working with Precision Point, will position Medscheme International in the UK and US healthcare BPO market.

- Months 1–3: initiation and market positioning.
- Months 4–12: market engagement and sales.
- Cape Town lead-generation team throughout year 1.
- Travel, expenses and marketing billed pass-through.
- 15% commission on revenues Medscheme bills directly to clients, to be validated after the first three months' market-pricing work with Precision Point.

WORKSTREAM B · ZAR

Shared Services project — Gate 1

A three-month evaluation of Medscheme Shared Services against international BPO best practice, so the function can support international commercial models.

- In scope: Discovery, Evaluation, Measurement.
- Out of scope: Improvement — a later, separately agreed phase.

- Outcome: a roadmap with measurable outcomes and associated costs.

\$417.7B → \$694.4B

Global healthcare BPO market, 2025–2030 (10.7% CAGR). North America holds 51.4% share (2024).

£220m → £1.7bn

NHS trust spend on independent-sector providers, 2012–13 to 2020–21 — a 659% rise.

R1.2bn

Indicative year-5 run-rate at 2,000 seats × R50,000 per seat per month. Year 1: 100 seats / R60m.

Gate 1 — in this proposal

Gate 1 is designed to identify opportunities to reduce overheads through streamlining; gear Shared Services to global BPO best practice for international business; and build a capability that can support international commercial BPO models.

Disciplines evaluated

Recruitment	Training	Onboarding
Quality Assurance	Workforce Management	AI Insights & Analytics

Assessed against innovation, global best practice and BPO-readiness. “Areas for augmentation” is the output of Gate 1 and becomes the scope of a future, separately agreed phase.
