Trilogy Digital is our purpose-built CX JV — Trilogy's UK campaign depth and digital/AI capability paired with **CXG's** 27-year South African contact-centre scale. Through the wider **Digital Solutions Group (DSG)** ecosystem we also unlock **MVNO / MVNE** infrastructure: launch and operate branded mobile without building a network.

ONE-LINE FOR THE CEO

We don't just run CX for telcos — through DSG/CXG we can help a brand **become** a mobile operator, then run the CX that makes it stick.

OUR JV
Trilogy Digital

50/50 JV (Trilogy BPO × CXG). Owner-led CX with digital & AI — 1,000+ specialists across SA; flagship Mutual Park, Cape Town.

UK + SA CX · Digital & AI · Owner-led

GROUP PARTNER
DSG

Digital Solutions Group (est. 1998) — seven specialist businesses; one partner across CX, marketing, telecoms, data/AI, security & commerce.

28+ years · 60+ brands · MVNO launch

JV PARTNER
CXG

On-demand digital CX — 27 years, 100+ clients, 1,000+ specialists, 3M+ interactions/month. Deep Mobile / MVNO CX playbooks.

On-demand CX · MVNO support · QContact UCaaS

Mobile MVNO / VMNO capability

DSG's telecoms arm (MVNE / Digital Mobile) delivers white-glove MVNO enablement — wholesale, billing platforms and day-one ops. CXG powers the CX layer: activations, billing support, tech troubleshooting and CVM.

< 60 days
Launch branded white-label mobile

Since 2013
MVNE enabling mobile across Africa

- **Consult & design** — modelling, CVP, wholesale, journey design
- **Build & launch** — MVNO platform, billing/CRM (MARS), branded app & GTM
- **Operate & grow** — turnkey ops, revenue assurance, logistics, care & CVM
- **CX at scale** — CXG / Trilogy Digital: activations, billing, tech & retention

New revenue
Launch branded mobile for retail, media, banking & ISP clients

One stack
DSG/MVNE + CXG/Trilogy Digital — fewer vendors, clearer outcomes

Proven CX
Same DNA as Webafrica & Homechoice (overleaf)

CASE STUDY · ISP / BILLING CX

Webafrica — On-demand billing support at scale

National ISP billing cycles drive anxiety, volume spikes, and zero tolerance for error.

120	Zero	Peak
billing-trained chat agents	core-team disruption	CSAT protected in billing stress

PROBLEM

- Needed rapid scale of billing-skilled chat agents
- Multiple processes: VR, debit orders, suspensions, premium extractions
- Extended / staggered hours with day-by-day flex
- Failure = churn, reputation risk, billing escalations

SOLUTION

- Fully managed, on-demand chat workforce built for billing ops
- Real-time WFM + intraday optimisation
- Centralised QA, escalation handling, live performance monitoring
- Aligned to Webafrica billing cycles & systems (Fibre, LTE)

IMPACT

- Protected CSAT during peak billing stress
- Fewer billing escalations & repeat contacts
- Faster response to payment failures / suspensions
- Accurate, compliant billing communication at scale

CASE STUDY · RETAIL / CHAT COMMERCE

Homechoice — Facebook to WhatsApp sales

Couldn't convert Facebook ad interest into real-time sales outside working hours.

+R1m+	91%	+50%
revenue / month uplift	WhatsApp adoption	customer compliments

CHALLENGE

- No real-time selling from Facebook adverts
- Conversions locked to normal working hours
- Previously dependent on human intervention to close

SOLUTION

- Trilogy connection system: Facebook prospect → WhatsApp instantly
- Seamless buying path with continuous buyer contact
- Always-on engagement beyond the contact-centre clock

BENEFITS

- Revenue increased by over R1,000,000 per month
- Improved customer satisfaction
- 91% WhatsApp adoption; +50% customer compliments

CEO TAKEAWAY

Same operating model, two angles: Webafrica proves we can absorb high-stakes billing peaks for connectivity brands; Homechoice proves we can turn digital demand into measurable revenue. Pair that CX muscle with DSG's MVNO stack and Trilogy Digital becomes a partner that can **launch the network brand and run the customer experience**.
