TRILOGY CX SUMMARY

Board / Leadership Update

Primary: GCC · Secondary: BPO & AI · 21 Oct 2026

R3m	3	323	R141m	R3m
Bank	New clients	Pipeline FTEs	Pipeline ACV	Build CAPEX

Overview

BPO SALES
Slower than anticipated due to delay in UK sales resources (John Devlin & Alain Meric).

GCC DEMAND
Demand for GCC Professional Services — clear market shift toward capability centres.

Strategic positioning

Pivot slightly to primary focus on GCC and secondary on BPO and AI — following the demand cycle and differentiation.

- AI confusion is slowing BPO decisions.
- Trilogy team experience is well positioned for this.
- Following the demand cycle and differentiation.
- GCC is in demand.
- BPO competitors don't want to do GCC — not core for them.

New deals — last 3 months

Client	Type	Start	Term	Est. revenue	Est. GM	Comments
Ventrica — UK	GCC	01/10/26	18–36 mo	—	—	Growing 35 → 150 seats over 18 months
Medscheme	GCC	01/10/26	12 mo	R6.5m p.a.	R3.5m p.a.	Opportunity to outsource Shared Services
NADClinic	BPO	01/08/26	24 mo	R100k p.m.	R50k p.m.	Small UK campaign; limited growth estimate

GCC WINS LIVE
Ventrica + Medscheme
Both start 01 Oct 2026

LARGEST DEAL
The Very Group
150 FTEs · R63.0m ACV

CONTEXT

BPO offshoring growth estimates are behind plan. Cash remains at R3m. Near-term revenue is underpinned by Ventrica, Medscheme and (from Jan'27) Synamedia. Strategic response: lean into GCC demand, fix UK sales/contracting via partnerships, and stand up Woodstock capacity.

Cash Flow, Budget & New Revenues

Cash flow highlights

BANK BALANCE
R3.0m

YTD behind original BPO growth estimates. Actuals hold a flat revenue run-rate while projected ramp assumed faster UK BPO conversion. Overall YTD variance still positive vs plan.

Budget variance — Projected (R millions)

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	YTD
Revenue	0.43	1.23	2.02	2.04	2.09	2.95	3.77	3.77	4.11	22.40
Costs	(0.10)	(2.49)	(2.50)	(1.15)	(1.13)	(3.00)	(3.26)	(1.91)	(2.00)	(17.54)
GM	0.33	(1.26)	(0.49)	0.89	0.97	(0.05)	0.51	1.86	2.11	4.86
Overheads	(2.03)	(1.42)	(1.59)	(1.49)	(1.49)	(1.62)	(2.54)	(1.90)	(1.97)	(16.06)
EBITDA	(1.69)	(2.68)	(2.08)	(0.60)	(0.53)	(1.67)	(2.03)	(0.04)	0.14	(11.20)

Budget variance — Actuals (R millions)

Variance = Actual EBITDA vs Projected EBITDA

	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	YTD
Revenue	0.59	0.59	0.59	0.59	0.59	0.59	0.59	0.59	0.59	5.29
GM	0.59	0.59	0.59	0.59	0.59	0.59	0.59	0.59	0.59	5.29
Overheads	1.33	1.33	1.33	1.33	1.33	1.33	1.33	1.33	1.33	12.00
EBITDA	(0.75)	(0.75)	(0.75)	(0.75)	(0.75)	(0.75)	(0.75)	(0.75)	(0.75)	(6.71)
Variance	0.95	1.94	1.34	(0.14)	(0.22)	0.93	1.29	(0.70)	(0.89)	4.49

YTD VARIANCE
+R4.49m vs projected EBITDA

YTD ACTUAL EBITDA
(R6.71m) Projected (R11.20m)

New revenues coming online (Oct-26 → Jun-27, R thousands)

	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun
Ventrica	450	450	450	450	450	450	450	450	450
Synamedia	—	—	—	295	295	295	295	295	295
Medscheme Local	195	195	195	—	—	—	—	—	—
Medscheme Intl	246	246	246	82	82	82	82	82	82
TOTAL	**891**	**891**	**891**	**827**	**827**	**827**	**827**	**827**	**827**

NEAR-TERM RUN-RATE

Oct–Dec 2026: ~R891k / month. Jan–Jun 2027: ~R827k / month as Medscheme mix shifts and Synamedia comes online from January.

READ-THROUGH

Actual EBITDA is steadier than the aggressive projected ramp, which is why YTD variance is +R4.49m even while absolute EBITDA remains negative at (R6.71m). Closing the UK sales and contracting gaps is what unlocks the projected upside.

Risks, Facilities & Strategic Options

Risks & reasons for YTD revenue gap

Three fundamental challenges to meeting original growth estimates for BPO offshoring services

01 UK sales onboarding delays

Delays onboarding John Devlin & Alain Meric due to trade-restraint legal situations.

MITIGATION

Kobus meeting other sales resources and the CEO of UK BPO iQX (week of 27 Oct) to establish a wholesale/retail pricing partnership leveraging their sales and contracting capability.

02 Start-up perception

Seen as a start-up with limited balance sheet, scale and client references.

MITIGATION

Finalising a JV (SPV) with DSG South Africa for a joint go-to-market strategy to strengthen procurement credentials (not in all cases).

03 UK contracting preference

Cyber-security diligence is pushing UK buyers to contract with a UK entity, not directly with an SA company.

MITIGATION

Meetings with Ventrica and iQX (week of 27 Oct) to establish a UK contracting partnership — similar early-warning signals over the past 6 months.

Facilities & CAPEX

CURRENT

Renting shared office space at Old Mutual Park, Pinelands.

NEXT — BUILD-OUT

First CC/back office at Boulevard Office Park, Woodstock — contracts + HQ.

R3.0m

Estimated CAPEX

Build-out starts 1 November 2026 — dependent on Medscheme (sub-lease) and Redefine (long lease).

Strategic options / discussions

01 GCC focus

Build 2,000 seats over 3 years. 10,000 m². Profit ~R2,000/seat/month. ~75% EBIT. Needs a BUILD partner such as Navigator.

02 Mango 5 acquisition

R8m for ~R3m/month revenues & ~R1.2m/month GP. Value after 18 months circa R25m.

03 iQX UK partnership

GCC for them and a UK/SA pricing model (Ascensos-like) — sales reach and UK contracting in one move.

NEXT ACTIONS

iQX / Ventrica talks (w/c 27 Oct) · DSG JV finalisation · Woodstock build-out from 1 Nov 2026

EXECUTIVE SUMMARY

Lean into GCC demand — Ventrica and Medscheme are live from 1 Oct. Close UK sales and contracting gaps via iQX/Ventrica partnerships and the DSG JV. Protect cash (R3m) while standing up Woodstock capacity (R3m CAPEX from 1 Nov). Keep optionality on GCC scale-up (Navigator), Mango 5, and the iQX UK model.
